CONCERT OF RECORDS by Mme. Maude Powell, Violiniste, and Charles W. Harrison, Tenor
(AUSPICES OF THE FORTNIGHTLY MUSIC CLUB)

Sound-Proof Record Rooms

The new Music Department will occupy a large section of the west side of our third floor. It has been built upon a slightly raised hardwood floor, and includes a demonstration and rest room, show room and sound-proof, glass-enclosed booths for the demonstrating of records.

With these booths available, purchasers of records may have the most careful recitals with absolutely no annoyance of any kind from the outside.

This new department will add materially to the attractiveness of our third floor and will be of importance to all patrons of the phonograph section of this store.

Powell-Harrison Concert

Although we have available records sufficient in number to give full concert programs by both Mme. Powell and Mr. Harrison, it has been deemed wise, however, to combine these into a highly artistic recital from records.

Both the great artists to be brought here next month by the Fortnightly Music Club will be heard at their best in this recital and a cordial invitation is extended to all to come out and hear this first of many concerts which we expect to give in the new music rooms, now constituting a very excellent concert stage.

VETERANS INDIGNANT AT ATTITUDE TAKEN BY SOME CONGRESSMEN

ROSENWALD, N. M., Jan. 22.—Veterans of the Spanish-American war living in this neighborhood have expressed deep indignation and resentment at the assumption that they, with the national guard, are useless as a preparedness resource.

A number of members of the local camp of the Spanish war veterans have forwarded the following telegram of protest to Senator A. H. Fall:

"Whereas, because of inaction thereto they are conversant with conditions in Mexico, be it resolved that the members of the Spanish War Veterans' camp here do hereby assure to the president through Comrade Senator Fall that they and hundreds of soldier survivors of the Spanish war living in New Mexico are willing and ready, as well as able, to respond to any call for volunteers of military assistance that may be made by the commander-in-chief of the army and navy in the case of Harry W. Elliott vs. Harry E. White for the possession of a quarter section of land.

White made an entry on the land and completed the annual proofs showing that he has expended \$75,000 in reclaiming the land under the desert land act. He then abandoned the claim, later retitled and sought to use the fact of money expended under the entry to assuage him in making his annual proofs. The land official held that this cannot be done and that he would have to begin all over again, and this position has been endorsed by the authorities at Washington.

LAS VEGAS SOON TO HAVE PYTHIAN LODGE

Las Vegas, N. M., Jan. 22.—Because this city was the birthplace of Pythianism in New Mexico, especially strenuous efforts have been made to re-establish a lodge of the order here, there having been no official body of the order in Las Vegas for several years.

The Rev. J. H. Whistler, state organizer, has made several efforts in this direction and it now appears that these will be crowned with success, some thirty members of other lodges having signified their willingness to affiliate with a new lodge.

NEARLY A THOUSAND TO VOTE ON BARRING LIQUOR FROM CLOVIS

Clovis, N. M., Jan. 22.—An increase in the value of livestock on the farms in the Carlsbad project amounting to \$265,313.50 for the year just ended is shown by the report of government officers who visited every farm in the project to complete a census of the stock. The number of head of stock of all sorts the first of last year was about 9,000 less than it was at the first of the current year.

January 1, 1915, there were 182 head of cattle on the farms. At the close of the year 1915 there were 4,240 head, of which 838 head are classed as dairy cattle. The rest are beef cattle, some of which are on feed for market; others are being wintered on the farms to be returned to the range in the spring.

Ninety-six head of sheep were on the project farms on January 1, 1915, but by December 31, they had increased to 7,330 head. A part of the sheep is in the feed lots
